

Magnetic Chuck For Milling

The LM magnetic systems for milling are the optimal solution for clamping pieces on milling machines with a vertical or horizontal axis, a gantry, for machining centers.

400x400 Magnetic Table

400x400, 400x500, 400x600, 400x800
Special Size Table
For CNC machines
Plastic injection machines for fast mould changer

Mono Block Steel Body
Quick Bayonet Connector
Supply Voltage 230v AC
Metal Hand Control
Inox Buttons
Stock
Repair and Service

Made in Turkey

400x600 Magnetic Table

Table Specs

Magnetic Table	Length x Width x Height	Controllers
400 x 400	370 x 370 x 66	MTKK4A
400 x 500	370 x 450 x 66	MTKK5A
400 x 600	370 x 594 x 66	MTKK6A
400 x 800	370 x 800 x 66	MTKK8A

Maximum clamping force with square core technology.

Vibrations are damped and high quality machined surface is obtained.

Mono block 66mm thick high quality steel body. Provides high strength and high precision

Thanks to the independent winding feature of each cell, the damaged pole is repaired.

Square cells, it can fix small workpieces. IP69K Quick bayonet metal connector.

Controllers

Controls	Power	Voltage
MTKK4A	2.8kW	AC 230V
MTKK5A	4 kW	AC 230V
MTKK6A	3.5 kW	AC 230V
MTKK8A	5.6kW	AC 230V
