

Auxiliary Materials for Tools' Production

Oily Agglutinant

The protective oily agglutinant custom-formulated by us will protect the brittle PCD/PCBN tools edge. It offers the added benefit of anti-rust protection.

Dressing Stone

We offer a special-purpose dressing stick for the grinding wheel, which is made of high-grade white corundum. This product has suitable hardness and good dressing effect.

Vacuum Brazing Pastes

We provide many advanced vacuum brazing pastes from Germany and USA. These pastes could be brazed in different brazing temperatures.

Grinding Wheel

We offer various grinding wheels for rough and fine grinding which are suitable for all grinders.
