

HERRAMIENTAS DE BRUÑIDO BURNISHING TOOLS

HBE

+ Características

- Herramienta diseñada para bruñir en tornos, superficies exteriores de formas variadas
- Rodillo soportado entre rodamientos axiales
- Posibilidad de variar la presión de la cabeza para lograr diferentes niveles de bruñido en la pieza (Fig.1)
- Eje porta-rodillo de metal duro
- Utilizable sobre piezas de diferentes tipos de materiales con durezas hasta 45 HRC
- Provisto de rodillo de bruñir de perfil tipo E fabricado en HSS y templado a 62 HRC con superficie pulida con una $Ra < 0.4$

(Fig.1)

+ Features

- Tool designed for burnishing on lathes, on various profiles
- The roller is supported between axial bearings
- The pressure of the head can be adjusted in order to obtain different levels of burnishing on the workpiece (Fig.1)
- Carbide pin
- Usable on workpieces of different types of materials with hardness up to 45 HRC
- Provided with a E type burnishing roller made of HSS and hardened to 62 HRC, with polished surface $Ra < 0.4$
