

HERRAMIENTAS DE BRUÑIDO BURNISHING TOOLS

HBUD-P

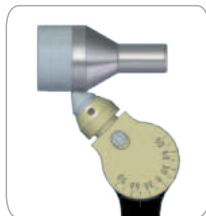

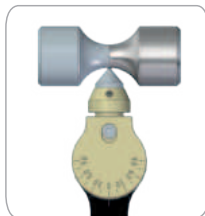

+ Características

- Herramienta diseñada para bruñir en tornos, superficies exteriores de formas variadas
- Punta de diamante alineada con la cara superior del mango
- Cabeza giratoria con escala graduada (Fig. 1&2)
- Cabeza provista de un sistema de resorte que regula la presión, haciéndola homogénea en todas las piezas (Fig.3)
- La punta de diamante se puede indexar hasta 3 veces prolongando así su vida útil
- Utilizable sobre piezas de diferentes tipos de materiales con durezas hasta 63 HRC

+ Features

- Tool designed for burnishing on lathes, on various profiles
- Diamond tip aligned with the top face of the shank
- Rotating head with graduated scale (Fig.1&2)
- Head provided with an internal spring system that regulates the pressure, making it homogeneous in all the workpieces (Fig.1)
- The diamond tip can be indexed up to 3 times, extending the life of the tool
- Can be used on workpieces made of different types of materials with hardness up to 63 HRC
