

Press Release

New, strong dual leadership at Power-Heat-Set, Germany

Since the 1st January 2021 Marcus Köhler, Commercial Manager, and Kurt Frank, Technical Manager, have teamed up together to lead the textile machine specialist Power-Heat-Set GmbH in Töging, Germany.

Töging, February 15th 2021. Marcus Köhler, General Manager of Power-Heat-Set since 2015, will continue to be responsible for commercial aspects such as customer support, sales, purchasing and administration. Kurt Frank, who is also the Technical Manager at the sister company Resch Maschinenbau GmbH, will be responsible for the areas of development, production and the so called 'Technikum' (showroom). Under his leadership an additional five highly qualified engineers and product designers have joined the R & D Team at Power-Heat-Set.

'The increased emphasis in the area of development is very important to us so that we are able to react more quickly to the individual needs of customers in the global carpet and textile machine branch. At the same time, we also want to focus more intensively on the technical innovations we are currently working on, so that we are able to offer these more quickly to our customers than we can at the moment', say Marcus Köhler and Kurt Frank.

Power-Heat-Set GmbH stands for field expertise, innovation, service and quality. Since over fifty years the products from Power-Heat-Set GmbH are considered worldwide as a guarantee for high quality and efficient production in the field of yarn finishing and have established Power-Heat-Set as a successful player in the global carpet and textile industry.
